1) ENGAGE WITH BRUSSELS

Would you like to engage with Brussels stakeholders such as the European Commission, the European Parliament or European universities as part of your research project outcomes?

<https://brussels.whiterose.ac.uk/>

The White Rose Brussels Office could help you to organise and facilitate an activity in Brussels such as:

- A showcase event of your research to policy and decision makers to raise the profile of your research.
- Meetings with Commission officials to learn more about European funding opportunities.
- Activities to develop potential European partnerships.

Complete the Engage with Brussels Form and email it to Dr Phil Holliday, European Public Affairs Director, WRB Office.

The completed forms are then assessed by the WRB Steering Group, based on the following criteria:

- Fit to strategic aims of the relevant White Rose Universities
- The level of White Rose cross-institutional involvement
- Likely outcomes from the activity
- Evidence of need of support from the Brussels Office

3) EU POLICY MONITORING

Each year, each of the WRB interns is tasked with writing a policy report to inform our academic and professional staff about the latest developments on research, innovation and education at a European level.

Here's how we can help you monitor the latest policy developments in your field of research:

- Attend showcase events, conferences and seminars on your area of research, where we can ask relevant questions and feed back to you.
- Tailor our policy reports to include aspects of policy development that pertain to your research.

Examples of previous policy reports include:

- 1) Housing Policy Challenges and Responses in the EU
- 2) The Future of UK-EU Student Mobility
- 3) UK Universities' Participation in Horizon Europe Post-Brexit

Interested? Please contact p.holliday@whiterose.ac.uk. We would be delighted to welcome you to Brussels and/or aid you as best we can on European matters!
